

## MANAGED FIREWALL

### KEY FEATURES

#### **24x7x365 Protection & Response**

Our security solutions are designed to provide around-the-clock protection. Western Iowa Network's team of managed security professionals respond to security incidents whenever they occur, so you don't have to.

#### **Best-in-Class Technology**

We've built our managed Firewall solutions on market-leading security technology. Transparency via Detailed Reporting  
A wide range of reports are provided monthly to ensure you have visibility into what is happening

#### **Best-in-Class Expertise**

Even the best technology is insecure if not configured and constantly maintained by credentialed security experts. At Western Iowa Networks, our managed security professionals come from a wide range of IT backgrounds, holding various security certifications that include CISSP, Security+, and more.

#### **Standardized Monthly Reporting**

In-depth monthly reports provide key insight into what's happening in your environment. Easy to read charts and graphs provide a snapshot of malicious activity, as well as the proactive steps Western Iowa Networks has taken to better protect you.

## Complete Managed Firewall for Your Business

### Benefits of Our Managed Firewall Solution

#### **Protects Your Data**

Based on market leading firewall technology and best practice security management processes, a Western Iowa Networks Managed Firewall Solution provides unsurpassed protection you can count on.

#### **Protects Your Reputation**

Security breaches happen every day and can cause embarrassment, downtime, and harm to your company's reputation. A Managed Firewall Solution dramatically increases your firm's security posture, helping you maintain the confidence of your customers and partners.

#### **Satisfies Regulatory Compliance**

Having the proper firewall, IPS, and VPN technology in place is key to obtaining & maintaining compliance for many regulatory & compliance targets such as PCI/DSS, HIPAA/HITECH, GLBA, SOX, NERC CIP, FISMA, FERPA, FedRAMP, and more.

#### **Frees Up IT Resources**

Given that most firms are understaffed; security can often be the first thing to suffer. Western Iowa Network's Managed Firewall Solution puts the burden of properly managing your firewall solution in the hands of our credentialed security experts. Your team can then focus on tasks more strategic to your organization.

#### **Lowers IT Cost**

A robust firewall facility in your organization requires more than just technology – it requires certified security engineers and 7x24 security event monitoring. Western Iowa Networks's Managed Firewall Solution helps drive your Total Cost of Ownership (TCO) lower by providing the expertise, the 7x24 coverage, and the best-in-class Firewall technology for a simple monthly operational expense.
